

The Next Level in Technology Distribution

**HUNDREDS OF CLIENTS NATIONWIDE FOUND
SAGIENT WHILE SEARCHING FOR WAYS TO GET THE
VITAL DATA SECURITY SOLUTIONS THEY NEED AT A
PRICE THEY WANT. LEARN WHAT THEY'VE
DISCOVERED!**

Since 2009, our mission has been to introduce customers to proven enterprise ready scalable solutions while providing an unparalleled purchasing experience. Transparency, honesty, and a unique approach to fulfilling clients' needs are the foundation that Sagient Technologies is built upon.

~Manufacturers provide distributors, like Sagient, "bonus" incentives of up to 20% or more when new customers are introduced. Is your distributor passing this discount through to you?

~Each manufacturer we work with has agreed to provide our clients full and direct U.S. based support. Is your distributor forcing you to utilize their "Tier 1" prior to being transferred out of country? Are they charging you extra for this?

~We make your technology purchases, upgrades, and renewals a hassle free, and potentially lucrative, process. Our industry first **Profit Share for Technology™** program allows you to save potentially thousands of dollars on your initial purchase, as well as follow up purchases, when introducing us to peer organizations.
