

Exscape, “the ultimate smoke shop” in New York State, now goes national with its online head shop

Exscape is a leading smoke shop in the New York State, with brick and mortar head shops in Albany, Rochester, Syracuse, and Ithaca. So what's the big news? The launch of their website, ExscapeNY.com, which will cater to national-wide enthusiast smokers.

Albany, New York (PRWEB) July 20, 2012 | Follow Exscape on: [f](#) [t](#)

Why [Exscape Smoke Shop](#)?

New York is sprinkled with dozens of smoke shops, but somehow Exscape was able to grow and eventually become a leading player in this highly competitive market. It managed to do that by offering “prize winning products” at decent prices in all of their stores, ever since their opening back in 2005. In fact, some of their products are one of a kind and can't be seen anywhere else. So, although Exscape's prices are lower than most of its competitor's, their true strong point is the wide variety of smoking accessories that they carry.

Exscape's range of products includes more or less traditional smoking paraphernalia, such as hand [smoking pipes](#), glass bubblers and water pipes, but it also features the modern herb vaporizers.

Healthier smoking?

One of the best selling products at Exscape are their herb vaporizers, which are also priced more affordably, allowing for the customer to enjoy a healthier alternative to traditional smoking that preserves the flavor of the tobacco and the nicotine that traditional smoking does not. By using vaporizers, one can get rid of the nasty effects of smoke and one's lungs from carcinogenic substances found in smoke. Vapor contains virtually zero particulate matter or tar, and significantly lower concentrations of noxious gases such as carbon monoxide.

“Our products are for the connoisseur smoker, someone looking for a new and healthier way to smoke, and the challenge is keeping our customers happy,” states Tabatha, the business representative.

The website

With the recent launch of its website, [www.exscapeny.com](#), Exscape is no longer bound to remain local. The website features an online shop where people from all over the country can order their products at very affordable prices. The shipping is also very convenient, with fees as low as \$3 (through U.S. Post Service) all over U.S. for orders under \$50, and 0\$ for orders over \$50.

10% off for all online orders during summer

To promote their newly-launched website, Exscape and the agency they're working with started a campaign that encourages customers to use a coupon online to get 10% off the store listed price. The coupon is SUMMERSALE and must be entered before checkout.

Visit [www.exscapeny.com](#), use the coupon, and get 10% off anything you order.
