CUSTOMIZED FOR YOU

With extensive features and a high return-on-investment, an Electronic Health Records software solution from RevenueXL meets the unique needs of your practice and your specialty. Our software incorporates specialty specific procedure templates, automatic referring physician letters, electronic superbill, and E&M coder - all customized for your specialty. The EHR system can also be customized to mimic your existing workflow and model your existing templates/forms.

FULLY CERTIFIED EHR

Our Electronic Health Record software is ONC-ATCB Certified 2011/2012 (Authorized Testing and Certification Body) and CCHIT Certified® 2011 to ensure that the EHR technology incorporated therein meets the federal standards, certification criteria, and other technical requirements to achieve meaningful use thus qualifying you for the EHR Incentives.

AFFORDABLE LOW COST

Our Certified Physician EMR software is competitively priced with low startup costs making it very affordable to all small, mid-sized and large medical practices. We have even special lower prices for Nurse Practitioners or other mid-level Providers, and big price breaks for startup or new Practices.

RevenueXL: Your End to End solution provider

Whatever you need to run your practice at optimal costs, you can depend on us to provide software, hardware and services including Medical Billing, Coding, AR Management and Coding Audit Solutions! We combine technology with our experienced resources to deliver cost effective medical billing and compliance services and solutions that help optimize your revenues.

Medical Billing Services from 4.5% to 6.5% of Collections

In conjunction with our market leading EHR, RevenueXL offers transparent medical billing services at guaranteed low cost. Integrated Practice Management software and proactive follow up on medical insurance claims accelerate your practice revenues significantly. It means that money arrives in your bank faster than ever before and without any worries about not following the numerous laws and regulations for different payers.

Our transparent operations ensure that you get detailed reports that include billing, collections, Carrier AR (Account Receivables), patient AR, denial management, etc., to provide you with visibility and insights that other medical billing services will never will.

- 24/7 access to billing information.
- Denial management including under-payments.
- Monthly patient billing.
- Toll-Free number for patients to call with billing issues/questions.

Medical Coding and Audit & Compliance Services

Lower your rate of claim denials and rejections, maximize reimbursement and improve compliance with your coding guidelines and regulations besides optimizing your collections!
