

Electra Mining Africa 2012, Good Opportunity to Show China Largest Stone Production Line from DSMAC

DSMAC is invited by the Machinery Industry Branch of China International Trade Promotion Committee to participate in the Electra Mining Africa 2012 during September 10-14, as a representative of China mining machinery manufacturer.

Electra Mining Africa 2012

Date: September 10 to 14, 2012

Country: South Africa

Venue: Expo Centre, Nasrec, JHB

Booth number of DSMAC: 017

Electra Mining Africa, ranked as the second largest mining exhibition in the world, has gained global recognition for its broad reach across mining, construction, industrial and power generation industry sectors. Held every 2 years since 1972, **Electra Mining Africa** proves its status as a world-class event attracting a large number of high quality exhibitors and visitors, benefiting from the platform created to showcase the latest in products, services, technologies and trends.

As a successful representative of China mining machinery manufacturer, [DSMAC](#) is invited by the Machinery Industry Branch of China International Trade Promotion Committee to participate in the Electra Mining Africa 2012 during September 10-14. DSMAC will take this opportunity show its latest achievement, China largest [stone production line](#) located in Xingyang, Zhengzhou, China.

DSMAC is a global leader in the design, development and manufacturer of crushing, feeding and screening equipment, as well as sandstone aggregate production line for quarry and cement plant. It offers general contracting experts of 50-350t/h stone production line project, including vibrating feeder, jaw crusher, impact crusher or cone crusher, and matched belt conveyor. Also DSMAC patent wear-resistant parts [blow bar](#) and crusher hammer, which can prolong the service life at least 30%, has been awarded as “China best hammer” and “China best price Award”.

DSMAC granite production line has been successfully exported to Cameroon, Uganda and Nigeria in Africa in 2011. The ideal collocation and high efficiency of production line helped the client save the cost at least 25%.

Electra Mining Africa 2012 will provide an unparalleled opportunity for mining machinery manufacturers to connect with potential international buyers. “With powerful scientific research team, including 2 national experts, 28 senior engineers, and 8 world's authority experts, DSMAC can provide customers the best product and service.” Lu Hongbo, the president of DSMAC said.

ABOUT DSMAC

DSMAC is a full-service mining solutions company built on fifteen years of consistent, quality service and enduring client relationships. The firm offers a comprehensive range of on-target crushing solutions and has earned a reputation for technical excellence, superior service, and on-time, on-budget delivery. There is also a team of professional engineer passionately committed to bringing leading edge design technology coupled with a proactive philosophy on customer service and support.
