

PRESS RELEASE

Valdata Systems Announces a New Webinar Focusing on Dispensing in Manufacturing

Chemical Management System Providers publish a Free Webinar Providing a Full Overview of the CMS Dispensing Software Module While Demonstrating How to Eliminate Human Error in Preweigh

July24, 2012: Valdata Systems today announced the release of a free webinar providing education on best practices in dispensing and pre-weigh operations. The webinar gives an in-depth demonstration of the Mar-Kov CMS Dispensing Software Module.

The 46 minute webinar explains in detail every step of the critical pre-weigh through blending process and how best to optimize, improve and eliminate human error in this area of manufacturing. The webinar includes multiple scenarios including:

- Preweigh
- Blending
- Commingling
- Compounding

Weighing and dispensing is one of the most critical steps for regulated industries. Companies are striving to eliminate the potential for error from the manufacturing process. The CMS Dispensing Webinar shows how to ensure regulatory compliance while reducing risk in this area.

Learn how barcode identification, step-by-step process policing and scale integration dramatically improve your dispensing operation as you are guided through the preweigh process.
