LIDO BEACH RESORT WELCOMES TRAVELERS TO SEA TURTLE NESTING SEASON

With private beachfront access, the Lido Beach Resort is the perfect spot to experience the Florida Sea Turtle Season.

Sarasota, FL – From May until October, the [Lido Beach Resort](http://www.lidobeachresort.com/) welcomes very special guests: sea turtles!

Every year, mother sea turtles crawl up the beach and build a nest during the nighttime. After depositing their eggs, which they lay hundreds at a time, the mothers return to the water and continue with their lives. Then, one to two months later, the tiny baby turtles hatch and make the trek across the sands, down to the water and begin their aquatic lives.

Visitors from all over the country and world make their own journey to the Lido Beach Resort for the special sea turtle sightseeing. Thanks to its location on the beach, this [Florida resort](http://www.lidobeachresort.com/) offers spectators a front row seat and a great chance to see the sea turtle nesting season.

Guests can book a room today at the Lido Beach Resort for a chance to see the baby sea turtles crawl across the sand. The hatchlings emerge at night, and while flash photography is prohibited (as it interferes with their ability to find the water), seeing this amazing sight in person will be an unforgettable experience.

Hopefully guests will see sea turtles lay eggs or hatch; however, guests are in for a luxurious experience regardless. Pristine beachfront allows guests to soak up rays during the day, while a large pool area makes for the perfect place to spend time together as a family or enjoy some R&R. Each of the spacious hotel rooms offers plush beds and modern amenities; vacation condos with full kitchenettes are also available.

Witness the amazing FL sea turtle season firsthand this year and book a room at the [Lido Beach Resort](http://www.lidobeachresort.com/) today.
