PROVADE ANNOUNCES NEW HEADQUARTERS WITH LATEST OFFICE
Continued growth prompts move, doubling size of Milwaukee site and new headquarters

MILWAUKEE, July 26, 2012 – [Provade, Inc.](#), a Vendor Management System (VMS) technology company previously based in Silicon Valley, announces its new headquarters in Milwaukee. Now located at 770 N. Jefferson St., the move doubles the size of Provade’s Midwest office and will allow the company to add positions in each of its departments.

“A larger office was necessary for our continued growth, our ability to provide Provade customers with superior service and maintaining our position as a VMS industry leader,” said Edward Jackson, President of Provade. “Although we considered moving outside Milwaukee as we began to outgrow our former space, we decided the area’s strong job pool and central U.S. location provided Provade with the best environment to continue conducting business.”

The expansion comes on the heels of a round of hiring for Provade. In the past two years, Provade has tripled its head count and in March, over ten open positions were posted for Milwaukee and the San Francisco Bay Area. The positions included new developers and consultants. Also in March, Provade implemented a new Chief Business Intelligence Architect. Provade will continue its California presence with an expansion office in Pleasanton, California for its ongoing development.

About Provade

Provade, Inc., a Certified Women’s Business Enterprise (WBE) and Minority Business Enterprise (MBE) based in Milwaukee, delivers the only enterprise Vendor Management System (VMS) for global workforce spend management. Provade VMS is built entirely upon Oracle based technology and applications. Provade’s Software as a Service (SaaS) solution helps businesses achieve efficiency and measurable savings in their staffing, statement of work (SOW) and services spend. Leveraging best in class technology, Provade VMS delivers business process flexibility, robust analytics and complete integration with ERP systems. For more information, visit www.provade.com.

Provade provides Business Process Outsourcing services for VMS "Powered by Oracle".
