

# A new, **state-of-the-art** sign system for identifying lab hazards and PPE requirements

## Laboratory Door Safety Signage

**Trusted Clarion expertise** in ANSI and ISO standards-compliant messaging

**Fits any lab environment** with customizable messaging and pull-out signage slots for easy, on-the-spot updates

**Reduces clutter** with a clean, consistent display framework that can be used across multiple workplace locations

## Laboratory Door Safety Sign System

In areas where hazardous materials are in use, like laboratory environments, it is essential to communicate proper procedures for a safer workplace and an improved risk management/liability position. Clarion Safety Systems has engineered a unique sign system that gives you the flexibility to identify specific hazards and conditions in each one of your labs, as well as the personal protective equipment (PPE) required. Placed on or next to lab doors, these quick-tailored signs keep your staff informed and provide critical data for emergency responders. You can trust in Clarion safety communication expertise, state-of-the-art digital printing, and rigorous quality assurance to help you to better protect your employees and reduce risk for your organization.

### Clarion Lab Door Safety Sign Features

**Flexible display framework** allows messages, including type and length of content, to be adapted to suit varying environments, while still providing an organized, consistent look when placing multiple signs across workplace locations.

**Individual, pull-out component slots** allow for easy and economical updates without having to replace the full display.

**Compliance expertise** to ensure “best practice” messaging that is ANSI and ISO standards-compliant.

**Fully customizable messaging** can be tailored to fit the specifications of virtually any lab environment.

**Architectural aluminum frame** with concealed fasteners (mounting holes and adhesive strips) provide an attractive display of critical lab information.

### A Totally Customizable Solution

With Clarion lab door safety signs, you have the ability to customize each part of the solution to meet your specific needs: the message content in the header, the message content in each of the slots, and the number of slots to include on the sign.

To order a lab door sign system that meets your needs, call Clarion at (800) 748-0241.

## About Clarion Safety Systems

Clarion Safety Systems is the leading designer and manufacturer of state-of-the-art facility safety signs and product safety labels for over 180 industries worldwide. The goal: to reduce risk and protect people in their work and public environments. As part of this mission, for more than two decades Clarion has used its experience and expertise to lead a wide variety of standards-writing committees to develop best practices in visual safety communications in the U.S. and around the globe. **To learn more about Clarion Safety Systems, please visit [www.clarionsafety.com](http://www.clarionsafety.com).**
