Sagemcom Solution Now Rated "Avaya Compliant"

- *Sagemcom XMediusFAX software solution has been compliance tested for compatibility with Avaya IP Office Release 8.0.*

Montreal, Canada— Sagemcom, a leading provider in Fax over IP (FoIP), today announced that its boardless fax server solution, XMediusFAX, is compliant with key collaboration solutions from Avaya, a global provider of business collaboration and communication solutions.

The XMediusFAX FoIP solution offers a cost effective and efficient means for mission-critical enterprise faxing that is secure, scalable and survivable. The application is now compliance-tested by Avaya for compatibility with Avaya IP Office 8.0.

"The XMediusFAX solution enables enterprises to increase their productivity and capabilities by integrating new functionalities in their faxing technology," said Jean Champagne, General Manager, Sagemcom Canada. "We are proud to work with Avaya and combine our strengths to deliver enhanced features and functionalities."

Sagemcom is a Technology Partner in the Avaya DevConnect program—an initiative to develop, market and sell innovative third-party products that interoperate with Avaya technology and extend the value of the company's investment in its network.

As a Technology Partner, Sagemcom is eligible to submit products for compliance testing by the Avaya Solution Interoperability and Test Lab. There, a team of Avaya engineers develops a comprehensive test plan for each application to verify whether it is Avaya compatible. Doing so enables businesses to confidently add best-in-class capabilities to their network without having to replace their existing infrastructure—speeding deployment of new applications and reducing both network complexity and implementation costs.

"Technology Partners like Sagemcom are expanding the choices available to Avaya customers," said Eric Rossman, vice president, developer relations, Avaya. "By integrating multiple forms of communication, Sagemcom's XMediusFAX FoIP solution helps companies increase employee productivity and reduce cost."

About Avaya

Avaya is a global provider of business collaboration and communications solutions, providing unified communications, contact centers, networking and related services to companies of all sizes around the world. For more information please visit www.avaya.com. For more information on the Avaya DevConnect program, visit www.avaya.com/devconnect.

About Sagemcom

French high-technology group with an international dimension, Sagemcom operates on markets of broadband (digital home, digital set-top box, broadband and residential terminals), telecom and energy (M2M, telecommunications infrastructure, smartgrid and metering), and management of documents (printing terminals, software and solutions, digital production workflow). With a turnover of about 1.5 billion Euros, Sagemcom employs 4 600 people on five continents; already a European leader in most of its key markets, Sagemcom aims to become a world leader in high added value communicating terminals.

Sagemcom is strongly committed to sustainable development through the life cycle of its products: eco-design, energy consumption, ethical code of all its suppliers.
