

HELLO, WE'RE TURN IT 2 LEARN IT!

Turn It 2 Learn It began in the summer of 2011 with co-founders and mother/daughter team, Sue and Kirsty Lovell. Shortly after, they partnered with Ideas By Nature and began developing a digital media company with special emphasis on creating educational products that promote learning that is entertaining for both kids and parents alike.

TI2LI is a fun and interactive educational tool that brings the joy of learning back to our children. We believe that as part of a global community, we can build a more solid educational foundation for every child. With our steadfast commitment to education, our top priority today and every day is to make learning fun again!

Turn It 2 Learn It strives to bring an effective and accessible learning experience to all children through the digital platform of the iPad. Our goal is to bring strength back to the educational system while supporting the values and morals of young individuals as they grow. Our products put education tools back in the hands of parents and their children to develop learning skills early. Turn It 2 Learn hopes to inspire and ignite the joy of learning that Kirsty and Sue experienced in their own childhood.

Turn It 2 Learn It will benefit your family in many ways, including:

- Providing a platform on which parents and kids can interact and learn together.
- Introducing children to age-appropriate and educational uses of the iPad.
- Creates a wholesome, structured atmosphere for stronger family links.

Tickle Stomp, Digital Book - Meet the Turner Crew and help them to solve the mystery of Miss Moo's Missing Moo!

Tickle Stomp is the first story featuring the Turner Crew! Emergent readers will be captivated by this delightful and interactive story. Designed specifically for the iPad, Tickle Stomp promotes early mental development and reading skills.

"When Miss Moo's moo goes missing, it becomes the main priority of the Turner Crew to get it back. But they can't do it without your help! Who took the moo? Will the Turner Crew find the moo in time? Why is Naughty the Squirrel so naughty? All these mysteries, and many more, will be answered in Tickle Stomp!" – put this in a box or some type of design element – think a page of a book or something to this extent
