

FOR IMMEDIATE RELEASE

Axial Benefits Group's Annual Employee Benefits Survey for New England businesses now available

Date: Wednesday, August 1, 2012

BURLINGTON, MASSACHUSETTS - Axial Benefits Group (**ABG**) announced today, and invites all interested, to participate in its annual *Employee Benefits Survey*. This report is expected to be the most extensive survey of its kind, focusing on identifying important business trends in companies with 25 to 2,500 employees throughout New England. The survey will be available on-line at <http://www.axialbg.com/survey>.

"New England is a very different marketplace from the rest of the country in that companies in this region lack the information they need to benchmark their practices against the competition", said Mick Rodgers, Managing Partner of ABG. "Since 2005 by providing this information we are changing the way New England businesses are buying their healthcare and other employee benefits".

Participants in the survey will be able to obtain access to competitive information, including: benefit costs, plan design and contribution levels for healthcare programs from hundreds of Massachusetts and New England companies.

Participants will be provided access to the final results at no cost. All company information will be held in the strictest confidence, and individual company data will not be released.

If you are interested in participating in the survey or would like more information, please contact Shawna Brackett at 781-273-1425 or Shawna@axialbg.com.
