peppermillreno.com

Discounted room rates end September 5.

Located just 3 miles from the Reno-Tahoe International Airport (and less than 7 miles from the nearest geothermal power plant), the **Peppermill Resort Spa Hotel** offers old-world hotel style service and aesthetics together with contemporary luxury hotel amenities, and a devoted attention to vacationers and convention delegates alike.

The Peppermill Resort Spa Hotel is "the only resort in the United States whose heating source is totally provided from geothermal energy produced on the immediate property."

Through a special arrangement with the hotel, the GRC room rate (single and double) this year starts at an affordable \$69 (plus applicable taxes).

- ❖ If you make your reservations over the phone make sure you mention you are part of the Geothermal Resources Council group to get the special rate.

OR

- ❖ **We strongly recommend making your hotel reservations on-line through a dedicated webpage** available on the GRC website at www.geothermal.org. The preferred rate is automatically applied.
