Broadcasters for Broadcasters

ONE CONNXT, a proven leader in broadcast delivery

Necessity is the mother of invention. In 2011, when ONE Media Corp's broadcasters needed a cost effective way to transport live sports and content from Asia to the United States that didn't sacrifice quality or reliability, ONE CONNXT was born. Just one year later, ONE CONNXT has gone global transporting major live sports including the prestigious Emirates Australian golf tournament and the Volvo Ocean Race. Recently, ONE CONNXT connected the Middle East to the world economically by joining Arab Radio and Television's (ART) broadcast center in Jordan with numerous production facilities in the Middle East and Europe.

Now you can experience the ONE CONNXT advantage!

Affordability with unsurpassed quality, reliability and 24/7 support

Global offices and technology centers

New Gen 3 upgrades offer the best quality for any content delivery system

Cloud services for ultimate video storage and regional time shifting, as well as revenue generating opportunities

See the ONE CONNXT advantage in action! To schedule your free demo during IBC in Amsterdam, please contact **Jodi Morelli** at jmorelli@oneconnxt.com
