

Colorado House Alarm Plans from Elite Security Services Becomes Better and Smarter with the Introduction of Advanced Sensors for Windows and Doors.

Elite Security Services has recently improved all their [Colorado House Alarm](#) packages with the addition of latest window and door sensors. The company has been offering low cost home surveillance service in the state since last one year and is one of the most trusted security dealers throughout the country including Colorado.

Elite Security Services has recently made a significant enhancement of their [Colorado house alarm](#) service plans with the addition of sophisticated door and window sensors. The customers of the company in Colorado would now be able to avail three points of protection with these sensors without any additional expense. In spite of being one of the youngest players in the security industry in this state, the company has done well to emerge as one of the most preferred service providers. Their low cost security plans offer all the advanced features to provide comprehensive home protection service.

[Colorado house alarm](#) industry has seen remarkable growth in the last few years with the entry of innumerable service providers. Elite Security Services has outperformed most of these companies with their excellent customer service, superior technology, and cheap price. Introducing the latest range of wireless sensors from the company, the owner Mr. Paul Shakuri said, "These wireless sensors can be installed in those inaccessible areas of your house where traditional sensors can not be installed. The installation process is simple and causes no harm to the interior of your house". He also mentioned that along with free three point security, the customers would also receive a specially designed door chime that alerts homeowners from intruders.

Elite Security Services presently offers three home protection plans starting from \$35.99 per month. Their cost efficient packages have allowed common homeowners in Colorado to protect their life and property from the ever increasing rate of organized crime in the state. Apart from offering their comprehensive range of low cost [Colorado house alarm](#) plans, the company has assumed a commendable role in promoting a crime free society in the state. Talking about the long term objective of the company, Mr. Shakuri states, "The best way to build a safe society is to create awareness amongst homeowners. We would do everything we can to help them stay safe".

About the Company: Elite Security Services is a rapidly growing company in the home security industry. They offer highly efficient and economical home security solutions in America and Canada.
