

HOTELOGIX Company Profile

WE ARE...

... technology solution providers dedicated to bring the benefits of end-to-end Hotel Management Services on the Cloud platform. We cater completely to the growing needs of Hotels in the SMB segment.

OUR AIM

...is to provide a single window solution that seamlessly drives your mission-critical operations and covers the entire ambit of your Hospitality Business.

We deliver products and services with a radically different approach that enables small and mid-size Hotels to operate & compete at a level playing field with larger Groups and Star Properties.

CUSTOMER TESTIMONIAL...

Hotelogix is a simple and easy to use system for the different level of staff at our hotel. The updates on their features just makes it easier every time. Their customer service is professional and highly personalized. I recommend Hotelogix for any hotel looking for simple and logical software...

A Prodigious New 360 solution for Hospitality & Travel Industries

WHAT IS HOTELOGIX?

Hotel solutions have come a long way from the basic Electronic Room Plan on DOS boxes to state-of-the-art visually rich interfaces that are offered today with endless features to run your Hotel efficiently. This has raised the bar on Hospitality services, bringing in a new breed of customers that consistently expects more for their dollar spent.

Hotelogix is the result of a growing need for Hotels to switch to a robust platform, and supports the fast paced dynamics of Hospitality business, which becomes ever more competitive by the day.

We understand and acknowledge that the operational challenges that the small and mid-sized hotel properties face today are the same as those faced by the larger starred hotel properties. Only the scales are different.
