Georgia Tech Lean Healthcare Courses
Improving Efficiency, Quality and Patient Care

Georgia Tech | Professional Education

Savannah Classes

Do you live near or plan to visit Savannah? If so, take advantage of two exclusive Lean Healthcare offerings at the Georgia Tech Savannah Campus!

Lean Overview and Simulation for Healthcare (HLTH 3200)

Learn the concepts, methods and approaches of a lean management system – the management system associated with the Toyota Motor Company – and the practical application of lean through a hands-on simulation. Course uses process/patient flow models to demonstrate how the lean methodology may be effectively applied to your environment.

Sep 14, 2012 | $251| Savannah, GA | .7 CEUs

Lean for Healthcare: Turnover Time Reduction (HLTH 1011P)

Master the concepts, methods and approaches used for reducing the amount of time required to "change over" a resource. This class also includes a hands-on simulation.

Sep 14, 2012 | $251 | Atlanta & Savannah| .7 CEUs

Certificate Classes in Atlanta

Earn a certificate in Lean Healthcare from Georgia Tech! Our proven certificate program aligns you with the principles of Lean Healthcare, so you can become a lean expert yourself and bring dramatic changes to your organization. **The four classes below**

Lean Healthcare Introduction - A Case Study Review (HLTH 1012P)

In this self-paced, online course, you will examine the origins of the lean process improvement methodology, the culture at the Toyota Motor Company, and the effective application of lean tools and concepts in healthcare settings.

Sep 24, 2012 – Nov 2, 2012 | $195 | Online | .75 CEUs

Lean Healthcare Training – How to Apply Lean Thinking to Healthcare Organizations (HLTH 1010P)

This "bootcamp" style course is where participant teams bring real life problems and develop lean solutions to these problems during the week-long course. Experience the impact of lean practices on a simulated process, including the basics of flow, pull, 5S, standardized work, workload balancing, cross-training and communication. If you take only one of our Lean Healthcare courses, this is the one to take!

Oct 16 - 19, 2012 | $2,895 | Atlanta, GA | 2.6 CEUs
Mar 5 - 8, 2013 | $2,895 | Atlanta, GA | 2.6 CEUs
Oct 1 - 4, 2013 | $2,895 | Atlanta, GA | 2.6 CEUs

Lean Healthcare - Applying Value Stream Mapping and A3 Problem Solving Methods (HLTH 1013P)

In this instructor-led online course, you'll maximize the value of Lean Healthcare tools and practice integrating this methodology into your organization through a real world project. You'll apply Value Stream Mapping and A3 Problem Solving to a specific process and problem in your own workplace.

Nov 12, 2012 – Jan 11, 2013 | $395 | Online with live, interactive Q&A sessions | .8 CEUs

Lean for Healthcare: Turnover Time Reduction (HLTH 1011P)

Master the concepts, methods and approaches used for reducing the amount of time required to "change over" a resource. This class also includes a hands-on simulation.

Feb 7, 2013 | $295 | Atlanta, GA| .7 CEUs
