About JAMIS

JAMIS solutions are developed specifically to provide the functionality essential to working with government entities. Our feature-rich solutions automate the complexity of accounting, project management and compliance for government contractors.

- Software designed to help you meet DCAA, FAR and CAS requirements
- Prevent overruns with tools to monitor labor, material, budget and costs
- Solutions provided as either cloud-based software as a service (SaaS) or installed software

JAMIS Financials

This industry-leading government and defense contractor accounting suite allows simplified set up, maintenance, and tracking of projects, and streamlines billing to improve cash flow. JAMIS Financials provides the following accounting modules:

Standard Modules

- Job Cost
- Project Billing
- General Ledger
- Accounts Payable
- Accounts Receivable
- Labor Distribution
- Reports & Analytics

Optional Modules

- Contract Management
- Payroll
- Purchase Order
- Inventory Mgmt
- Fixed Assets & Depreciation
- Bill of Materials
- Business Planning

JAMIS e-timecard & e-xpense

Our web-based time collection and expense reporting solution replaces manual entry and approval. It has been designed to meet government contractors' needs to improve efficiency and profitability while meeting DCAA compliance requirements.

JAMIS Advantage

JAMIS Advantage is the leading outsourced accounting solution for government contractors. Put it to work in as little as 30-days without adding staff or paying for training.

JAMIS SMB Pack

The JAMIS SMB pack combines financial and e-timecard modules along with quick-start implementation services and training for growing government contractors with 50 to 500 employees. The SMB pack will streamline billing to improve cash flow, provide automated support for compliance with DCAA, FAR, and CAS and give employees the capability to process timecards anywhere and anytime.

JAMIS Human Resources Management Solutions (HRMS)

Our HRMS automates all aspects of HR, allowing you to streamline workflows and simplify employee administration. With solutions for everything from applicant tracking and onboarding, to payroll and time entry, you can minimize risk, control costs and improve workforce productivity.
