

Generate extra work with Green Deal

Measures including:

- Heating
- Ventilation
- Building Fabric/Insulation
- Lighting
- Controls
- Microgeneration/Renewables

Why achieve Green Deal Accreditation?

The Green Deal will create a massive demand for homeowners and businesses to upgrade their properties with no upfront cost

- Only Green Deal Accredited Installers can carry out Green Deal work
- The Green Deal is an easy sell to homeowners and businesses and is available to all
- There will not be enough accredited businesses to meet the government's expected demand
- Funded by private business so no risk of government cuts or U-turns

For majority of businesses all you will need to qualify for the Green Deal is to have a system in place and guidance on how to use it. Registration with the Green Deal oversight body is free for the first two years. The Route to Green Deal Installer provides both of these for only £99* giving access to a complete Green Deal online system and seminar to prepare. For MCS and existing Gas Safe businesses this may be all you need, for other businesses your Green Deal mentor will advise on the next steps for your business.

Complete your Route to Green Deal with QMSA and benefit from:

- The QMSA Guide to PAS 2030
- Full support and guidance from your Green Deal mentor
- Online tutorial seminar
- Green Deal workshop (optional)
- Online technical library
- Free Green Deal provider approval

To get access to Green Deal work your business must be registered under the Green Deal scheme

4 Easy Steps to Green Deal Installer

1 | Sign Up

Register online now at www.routetogreendeal.co.uk

You'll receive your logon details instantly and can access the online Green Deal system

2 | Setup your Green Deal Online System with Tutorial

This includes standalone Green Deal job management system, the QMSA easy guide to the Green Deal standard - PAS 2030, online tutorial seminar, straightforward personalised quality management system, including logo, and a complete online technical library.

Stage 2 linkup to complete Green Deal Advisor and Green Deal Provider system will create the 'one stop shop'.

Annual update and licence from year 2 of £120.

3 | Green Deal Workshop (optional)

If you want more information and discussion on the Green Deal scheme itself, you can sign up to our workshops for an additional £100. The workshop includes extra information about Green Deal opportunities, online management system setup and run through, the latest industry updates, maintaining Green Deal certification and Green Deal assessment visits.

4 | Sign Up to our Partner Green Deal Provider and Start Earning

Our partner Green Deal providers will be recruiting registered Green Deal businesses to undertake work via the Green Deal and ensuring those businesses that complete the Route to Green Deal have a great source of extra work

Ongoing 'pay as you play' £5* Green Deal job notification

Route to Green Deal Advisor!

Take the Route to Green Deal Advisor too and your business can undertake Green Deal Assessments for your customers. Provide your own Green Deal Advice reports and get access to even more work from your customers. Full energy Assessor and Green Deal Advisor training. Develop your business as a one stop Green Deal shop. Visit www.routetogreendeal.co.uk for more info

* All prices exclude VAT. The fee of £99 will return to its usual price of £199 after October 1st 2012.
