Innovative Solutions for Alternative Investment Firms

At Vantage Software, we've leveraged our deep understanding of alternative investment operations to develop the industry's first modular applications that support the unique way you do business. This unparalleled degree of flexibility delivers a distinct business advantage to:

- **Private Equity Funds**
- **Funds of Funds & Investment Advisors**
- **Real Estate Funds**
- **Institutional Investors**

Vantage applications allow you to automate, consolidate and analyze information like never before. Encompassing the alternative investment life cycle from investor marketing and servicing to accounting, reporting and deal management, our solutions take your infrastructure to the next level.

Vantage Software provides a complete suite of solutions that improve communications, transparency and decision support for your stakeholders.

Business Advisory - Technology

SMART DEVINE provides a full range of accounting, advisory tax and investigative forensic and litigation services to organizations across a variety of industries.

SMART DEVINE brings you the extensive experience and deep understanding you require in selecting a business advisor and long term partner. Our proven track record across numerous industries combined with specialized technology and accounting knowledge allows us to offer an unequalled comprehensive approach. Our experienced advisory team can deliver services that meet your needs, drive your business goals and help enhance your competitiveness.

We believe high quality work and personalized service differentiates us from other firms. This approach has produced extraordinary results.

By providing superior services at reasonable rates, we have attracted many clients who are disenchanted with large, global firms. Our client list ranges from large multi-national companies to a variety of smaller, regional companies.

- **Strategic Technology Leadership**
- **Operational Assessment**
- **Technology Environment Assessment**
- **Project Management**
- **Software Evaluation & Selection**
- **Systems Implementation Services**
- **Business Intelligence & Reporting**
