EDI Solved

# Tranzactor™

EDI Solved

**Eliminate the recurring EDI fees!**  
Translate EDI into ROI

With Tranzactor™ you can process EDI using direct FTP or AS2 communications through your existing internet connection and thus retain your cost savings for data-entry, billing, and customer service. By eliminating the VAN (Value Added Network) and sending your documents direct to your customer you **save yourself thousands of dollars per month in fees**. You can send or receive as much data as you need without any additional transaction or communication costs.

## Supported Platforms:

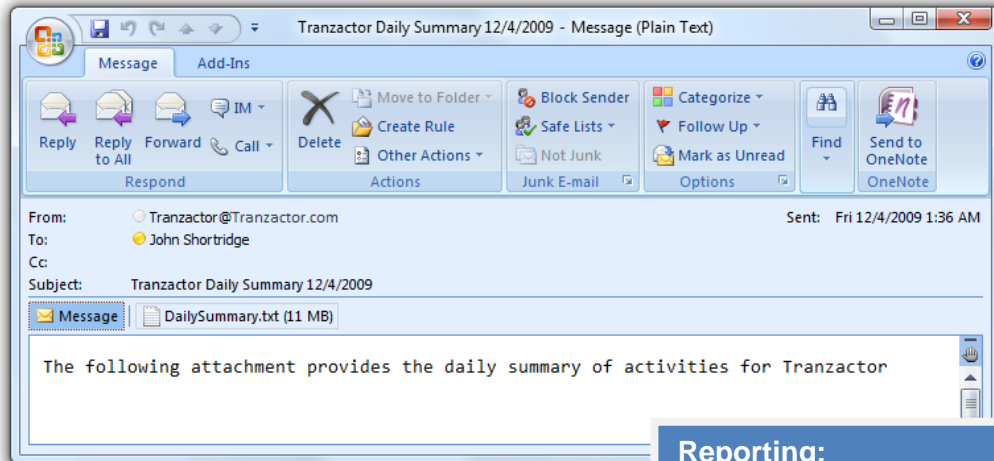

- Tranzactor™ supports both server and workstations running Windows XP, 2000, 2003, or higher
- Transportation applications are supported on Windows or iSeries
- Direct integration with all major Transportation Management Systems

## Features:

- Automated processing from EDI format to and from the database
- Load Tender (204), Shipment Status (214), Invoices (210), and Acknowledgements (990/997) supported
- Automated generation of requested functional acknowledgements
- Detailed error handling and reporting
- FTP, AS2 and AS3 Communications

## Tranzactor™ Server

- **Minimum Server Specifications:**
  - **OS:** Windows XP Pro/Vista, Windows Server 2000/2003/2008 or above
  - **CPU:** Pentium Class Machine 2.0 Ghz or above
  - **Memory:** 1Gb Memory
  - **Disk:** 60Gb Hard Drive with minimum 10Gb free
  - **Network:** 100Mbps Network Connection with Internet Connectivity
  - **Other:** .NET Framework 1.1 or higher
- **Recommended Server Specifications:**
  - **OS:** Windows Server 2003/2008 or above
  - **CPU:** Pentium Class Machine Dual Core 2.0 Ghz or above
  - **Memory:** 2Gb Memory
  - **Disk:** 100Gb or Larger Hard Drive with minimum 20Gb free
  - **Network:** 1Gbps Network Connection with Internet Connectivity
  - **Other:** .NET Framework 1.1 or higher

## Tranzactor™ AS2 Communications Server

- **Minimum Server Specifications:**
  - **OS:** Windows Server 2000/2003/2008 or above
  - **CPU:** Pentium Class Machine 1.2 Ghz or above
  - **Memory:** 1Gb Memory
  - **Disk:** 60Gb Hard Drive with minimum 10Gb free
  - **Network:** Network connection outside Firewall or in DMZ with static IP address
  - **Other:** .NET Framework 1.1 or higher, Internet Information Server
- **Recommended Server Specifications:**
  - **OS:** Windows Server 2003/2008 or above
  - **CPU:** Pentium Class Machine Dual Core 2.0 Ghz or above
  - **Memory:** 1Gb Memory
  - **Disk:** 80Gb or Larger Hard Drive with minimum 20Gb free
  - **Network:** Network connection outside Firewall or in DMZ with static IP address
  - **Other:** .NET Framework 1.1 or higher, Internet Information Server

## License Pricing

- **Tranzactor Server** \$5995
- **AS2 Module** \$3495
- **Mapping (per transaction)** \$795

\*Testing and certification services are available.

\*Custom plug-ins and systems integration available.
