

# The Help Cord™ (Model PPS-HC1) by Vigilant Personal Protection Systems

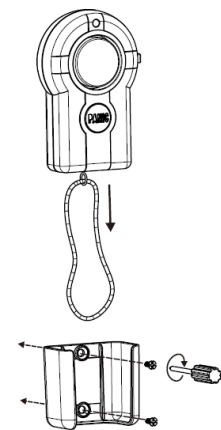

- ◆ 140 dB panic alarm
- ◆ Wall mountable with included cradle bracket
- ◆ Activated by panic button or Help Cord™
- ◆ 31.5" Help Cord™ for optimal placement near your easy chair, couch, bed, or in the restroom
- ◆ User replaceable AAA batteries included and preloaded
- ◆ U.S. Patent Pending

The Help Cord™ by Vigilant Personal Protection Systems is a free standing emergency alarm system. One touch of the PANIC button or one pull of the Help Cord™ triggers an attention getting 140dB panic alarm.

Designed for 2 minute installation, the Help Cord™ comes with a wall mounting cradle bracket that includes a 3M adhesive patch and two drywall screws. It can be installed on nearly any wall or flat surface in minutes, and the alarm can be moved easily from room to room (additional cradle brackets sold separately.)

Help is just one cord pull away with the Help Cord™ personal protection alarm.

**EASY WALL MOUNT INSTALLATION**
