

ANYWHERE POINT OF CARE

IT'S THAT EASY

AGNITY Healthcare harnesses the power of mobile technologies to unify communications and patient information access to enable actions that enhance the quality of healthcare. Doctors, healthcare staff, payers, and hospitals connect anytime, anywhere through a single point of access with the mobile devices they have and use every day. You realize the full potential of the resources you already have without disrupting your patient care priorities. Simple to use. No learning curve. Simply results. It's that easy.

THIS IS THE NEXT ERA OF HEALTHCARE.
And AGNITY Healthcare makes it easy to get there.

ACTIONABLE INSIGHTS - AT YOUR FINGERTIPS

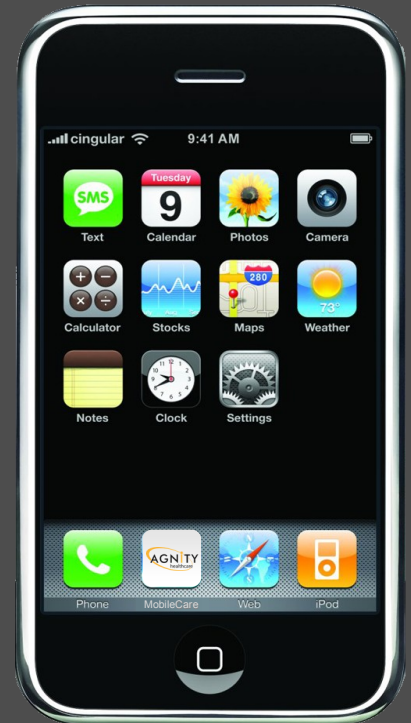

By connecting healthcare across the diagnostic and treatment continuum, healthcare professionals share and utilize secure, real-time data, images, updates, results, and expertise to turn raw information into educated insights, promoting better healthcare decisions and patient outcomes. In addition, AGNITY Healthcare solutions are HIPAA compliant and directly promote physicians' access to EMR and CPOE systems for fulfillment of Meaningful Use requirements.

CONNECTING ACROSS THE DIAGNOSTIC AND TREATMENT CONTINUUM, WITH VITAL INFORMATION IN THE PAML OF YOUR HAND AND FUNCTIONALITY INCLUDING:

Paging / Email / Phone / Calendar / Notifications / Access to EMR & CPOE / Real-time Monitoring / E-Prescriptions / Ordering Transcription / Clinical Test Results / Alerts / Patient Follow-up

Solutions from AGNITY Healthcare enable collaboration and action that promotes improved healthcare through shorter timelines, more informed decision-making and lowered costs.

YOUR HANDHELD DEVICE DOES MORE WITH AGNITY HEALTHCARE:

- Diagnostic results as fast as sports scores
- Patient status updates via text messages
- Communication with staff and patients anytime, anywhere

IT'S THAT EASY

AGNITY HEALTHCARE SOLUTIONS

AGNITY MobileCare™

Mobile Healthcare | Ehealth & Mhealth | Wireless Health Monitoring Solutions

AGNITY MobileCare™ harnesses the power of mobility through the mobile devices healthcare professionals already use to deliver anytime, anywhere unified communications and secure access to vital patient information, paging, notification, alerts and updates in real-time. Instead of logging on to multiple services and stations, staff employs easy-to-use applications to access vital information and execute key events including lab results, staff alerts, prescriptions, calendars and more. Whether at home, between appointments or on the go, healthcare professionals have everything they need on a single mobile platform to stay in touch and reach better healthcare decisions and outcomes.

AGNITY PatientFlow™

In-Patient Bed Management | Bed Tracking | Patient Flow Management System

The AGNITY Patient Flow solution, the premier patient flow and bed management system, provides personnel with the intelligence and communication tools to fully utilize bed capacity and manage treatment traffic for improved efficiency, productivity and care. The resulting advantage impacts the entire healthcare continuum including patients, nurses, physicians and administrators to improve patient/staff satisfaction and your organization's bottom line.

AGNITY CareView™

Secure Video Conferencing | Call Control & Administration | Play Recorded Clips

AGNITY CareView is a fully web-based and browser independent solution providing a secure video conferencing solution using the latest flash and VoIP technologies. It runs directly from the web browser and does not require any type of desktop client installation. Compliant to HIPAA requirements, Careview can be used advantageously for access to psychiatrists and therapists in rural areas, hospital emergency departments, or whenever expert advice is needed from a remote therapist. Incorporating advanced applications and features like voice and 3G mobile video calling, the solution is highly scalable, intuitive to use and works flawlessly on internet bandwidth available at most homes.

AGNITY Services

The engine that powers all of AGNITY Healthcare solutions is our Unified Communications Application Platform - APTUS. Leveraging more than 10 years of expertise in mobile technology and communications, our APTUS platform interfaces with EMRs, CPOEs, Lab systems, and all HIS, and accelerates the implementation of readily available and custom developed unified communications solutions. This helps our clients achieve their own communication and meaningful use compliance goals faster and more efficiently.

A new era of healthcare is happening through mobile technology so familiar and easy-to-use, organizations of all shapes and sizes worldwide are seeing the difference. Realize the full potential of the people, technology, data and expertise you already have. **Contact AGNITY Healthcare at 510-270-2669.**
