Innovative, easy to use and affordable, FleetLocate combines the powerful features and cost efficiencies of Global Positioning Systems (GPS), Mobile Resource Management (MRM), and Software-as-a-Service (SaaS) technology powered by Verizon, the largest high-speed wireless network in America, to help you:

- Manage your fleet more efficiently
- Reduce fuel and labor costs
- Lower maintenance costs
- Increase productivity
- Enhance customer satisfaction
- Improve safety, reduce risk and lower insurance costs
- Monitor your fleet in real time, 24/7

Drive your fleet performance.

Get on the path to improved fleet performance and cost savings with FleetLocate, the powerfully simple tool for smarter fleet management. FleetLocate arms you with the intelligence you need to:

Improve worker performance and compliance.

Track start/stop times, see driver routes, and receive time stamps for entering or exiting a job site so you can maximize your drivers' productivity.

Detect and eliminate waste and fraud.

Identify and improve driver performance that infiltrate your business and impact your bottom line, including:

- Speeding
- Excessive idling
- Route and schedule compliance
- Travel outside authorized areas
- Unauthorized use of company vehicles
- Labor costs

Increase accuracies and efficiencies. Ensure accurate time reporting for billing and payroll, and on-time scheduled vehicle maintenance.

See what's costing your business.

If you have big plans for your business, we have the right tools to help you get there. FleetLocate lets you map, monitor and manage fleet activities 24/7 via an intuitive web-based user interface.

Our local plan provides continuous visibility into your fleet and it's delivered over Verizon, the nation's largest and most reliable digital network:
