Undergraduate Certificate in General Studies

In a world of increasing competition where versatility is appreciated, it's important to have a solid foundation in general education that you can build on over time. The **Undergraduate Certificate in General Studies** answers the call. You'll obtain knowledge in the core subjects of English and Math, while also choosing from a variety of practical general education electives. All credits earned are fully transferrable to any Ashworth College Associate or Bachelor's degree program.

Career Profile

This program offers college-level instruction in key subjects, forming the foundation for communication and success in any business or organizational activity. You'll graduate with a level of competence and real-world knowledge that will be an impressive asset in advancing your education and career.

Employment Opportunities

Employers of all kinds appreciate the value of employees who have a broad base of knowledge. Your education will support your pursuit of a variety of entry-level positions and internships. You may consider occupations in administration, sales, technical coordination and customer service, to name a few.

What You Need

The prerequisite for this certificate is a high school diploma or G.E.D.

What You Get

You'll receive the following with each course in this program:

- Comprehensive textbook
- Online course materials, assignments and multiple-choice exams
- Online academic guidance and support
- Invitations to live events with career experts
- Access to Ashworth's active campus social community
