

WALL COVERINGS & VINYL

LEATHER GRAIN EFFECT

Product type and application: Leather Effect
Decorative PVC
Nominal Roll Length: 50 Linear Metres
Width: 137 cm
Under Foam Roll Length: 50 Linear Metres
Under Foam Roll Width: 140cm
Under Foam Thickness: 1.5mm (*also available
supplied with foam
backing)

Leathergrain is a leather effect PVC that is suitable for decorating wall panels for exhibitions and display panels. Under foam should be used beneath the leathergrain to provide a padded look and the leathergrain can be glued or stapled to the wall panel.

CTN supply three variations of leathergrain:

- Leathergrain Gloss finish available in all colours detailed below and also available with underfoam already applied.
- Leathergrain Matt Finish available in black and white.
- Leathergrain Plain available in white only.

Please contact us for product specific fire rating information.

Please note: Whilst we have made every effort to ensure colour accuracy on this PDF, variances in monitors, graphics cards and the floor covering manufacturing process, mean actual colours may vary. The colours shown here should be used as a guide only.
