The IW2234P-U is a part of the InnovaTouch series, a line that is based on projected capacitive touch technology. The 22" open frame's touch technology is complemented by the bezel-free design. Both the technology and the design result in a compact, durable, and elegant touch solution. The smooth surface begs to be touched, and the technology allows for multi-touch and gestures. The IW 22" also features a rugged and sturdy structure, making it an optimal choice for heavily trafficked areas.

Retail

The display's portrait or landscape orientation and various mounting options make it easy to place and install.

Gaming

The IW2234P-U's multiple touch points makes it the perfect choice for gaming environments.

Hospitality

The display is designed with form and function in mind. Its attractive looks are coupled with strong performance.

Restaurant/QSR

The display's durable design will outlast heavy use. The cables, too, are well protected and managed.
