

**InnovaTouch** is TouchSystems' line of [projected capacitive touch monitors](#) and open frame displays. The projected capacitive touch technology has a number of benefits: reliability, durability, multi-touch and gestures, flush screens, optically bonded glass, and bezel free designs. The monitors and displays can work with different touch inputs, including bare and gloved fingers.\*

**The InnovaTouch desktop monitors** range from 15 to 19 inches. They find a home in a number of environments, including retail, hospitality, medical, education, and corporate. The monitors come with both a desktop stand and VESA mount.

## Why choose InnovaTouch?

You should choose InnovaTouch because of:

- Superior image quality
- Value-added performance
- Dependability and reliability
- Maximized content viewing area

## InnovaTouch Product Specifications
