

Freedom from Software

We listen. We innovate. We deliver.

A Single-Source Solution Provider for All Your Technical Needs

FREEDOM REVOLUTION

Freedom from Technology

Freedom from Software

Freedom from Hardware

Freedom from Risk

Our Mantra

“We translate business objectives into simple technology solutions.”

BestIT is a technology services provider that delivers high-value, client-focused solutions to enterprises at competitive prices. BestIT works with clients to create a roadmap designed to reinstate the collaborative dialog between business and technology.

Freedom from Software

BestIT offers application solutions to ensure your software applications efficiently and effectively support your business. We use best practices, tools and toolsets, methodologies, and industry benchmarks to develop, maintain, or convert your applications.

We make IT simple.

Freedom from Software

- Ensure every line of code is in sync with budget and critical business requirements
- Maximize the performance of your software
- Stop worrying about upgrades
- Align software to your precise business requirements

BestIT increases the long-term value of your software applications through top-quality maintenance and enhancements to your existing application suite.

Make Old Software New Again

- Sustain and scale old software
- Create a competitive advantage for your business with software
- Keep a flexible system to protect from being held captive by vendors and resources

BestIT can support legacy applications and create a roadmap for converting those applications to newer technologies that deliver better performance in the form of cost effectiveness, scalability, and sustainability. Our maintenance management approach blends preventative and adaptive maintenance, working with IT governance and business representatives to identify, prioritize, and manage changes to the application configuration at the optimal cost. BestIT's combined reliance on skilled resources, tools, and alliances provides a true best of breed solution that will match your needs.

Be Mobile

- Take your current technology mobile
- Deliver and create mobile applications for customers, employers, and partners

BestIT can help you expand your business' reach and engage the mobile community by identifying the best ways for your business to embrace mobile technology, and then develop mobile applications tailored to your business and mobile strategy.

Optimize Your data

- Improve data accuracy
- Access critical data to make the right business decisions
- Increase the efficiency and speed of systems

BestIT delivers database management services for Exchange, Microsoft SQL, and Oracle that may include patching and updates, maintenance, performance tuning, backup management, high-availability load-clustering or VM hosted cluster, and incident management for outages and service degradation.

Invest. Grow. Repeat.

Harvest the full business value of your technology investment.
