Be Free.

BestIT®
Be Free.

Our Mantra

"We translate business objectives into simple technology solutions."

BestIT is a technology services provider that delivers high-value, client-focused solutions to enterprises at competitive prices. BestIT works with clients to create a roadmap designed to reinstate the collaborative dialog between business and technology.

FREEDOM REVOLUTION
- Freedom from Technology
- Freedom from Software
- Freedom from Hardware
- Freedom from Risk

We make IT simple.

Freedom from Technology

Freedom from Technology
- Create business-aligned strategy and budgeting
- Reduce technology costs and maximize your investments
- Emphasize on innovation versus just general support

Increase Productivity
- Focus on technology that supports business objectives
- Reclaim time to focus on your core competencies
- Identify key competitive analysis to execute on

Be More Competitive
- Focus on revenue, profit, and market share
- Solidify customer loyalty
- Map a plan for continued innovation

Execute Your Projects
- Automate manual tasks
- Accelerate delivery of enterprise projects
- Avoid unplanned expenses

Freedom from Software

Freedom from Software
- Ensure every line of code is in sync with budget and critical business requirements
- Stop worrying about upgrades
- Align software to your precise business requirements

Make Old Software New Again
- Sustain and scale old software
- Create a competitive advantage for your business with software
- Keep a flexible system to protect from being held captive by vendors and resources

Be Mobile
- Take your current technology mobile
- Deliver and create mobile applications for customers, employers, and partners

Optimize Your Data
- Improve data accuracy
- Access critical data to make the right business decisions
- Increase the efficiency and speed of systems

Freedom from Hardware

Freedom from Desktops
- Eliminate constant end-user support interruptions
- Do away with upgrade worries
- Be free from incompatible systems

Jumpstart Your Performance
- Liberate yourself from constant end user support interruptions
- Elminate system administration tasks
- Free your staff of systems monitoring

Maximize Your Hardware
- Lower or eliminate capex costs
- Focus on using less equipment with better output
- Reduce physical dependency on hardware

Freedom from Hardware
- Take advantage of the cloud without the hassle
- Maximize your hardware's peak capacity
- Get on the cutting edge without the cost

Freedom from Risk

Prevent Security Breach
- Protect your business from security threats
- Receive timely alerts of security breaches
- Attain freedom from managing security infrastructure

Solve Security Breaches
- Understand breaches and their impact
- Know the source of the breach
- Have confidence in urgent response and remediation

Identify Security Risks
- Understand risk, compliance, and vulnerability issues
- Receive a threat analysis of current security risks and impacts
- Have a go-forward plan for the improvement of system security

Prevent a Disaster
- Know your data is secure and available to allow your business to keep moving
- Maintain a disaster recovery solution that is fully aligned with compliance and customer commitments

---

Invest. Grow. Repeat.

Harvest the full business value of your technology investment.
