## In Partnership

GlobaLinks Learning Abroad and Active Learning Abroad have forged a unique partnership to provide high quality study abroad opportunities in Spain. Active Learning Abroad (ALA) is GlobaLinks' partner and overseas office for all students studying for a summer or semester at a university in Spain. The ALA offices and staff in Barcelona, Seville, Salamanca, and Madrid work closely with GlobaLinks Learning Abroad staff in the U.S. to provide all students with services and support throughout the experience. This ensures that each student has an individualized experience both during the pre-departure stage and while in country.

## GlobaLinks Learning Abroad Staff and Discovery Model

The Discovery Model is the framework we have used world-wide to create programs with individual student goals in mind. Our programs are delivered by some of the best staff in study abroad, both in the U.S. and overseas, in order to provide every student with an individualized experience through discovery in 5 key areas: personal, academic, cultural, social, and professional. In order to achieve this, our North American staff counsels each student throughout the application and enrollment process and our on-site Resident Coordinators in each city set up a calendar of activities for students related to the areas of discovery. These are not just visits to tourist attractions, but are events that truly enhance the student experience.

## Excursions to Help Students Make the Most Out of Their Time Abroad

GlobaLinks Learning Abroad and Active Learning Abroad includes both day and overnight excursions for all students participating in a semester/academic year or summer program. These trips allow students to get familiar with some of the most interesting cities and areas in Spain from cultural, artistic, and historic perspectives.
