what it is...

The 'Find A Distributor' feature grew from the need for operators to find an efficient way to immediately connect to distributors at the product level through the A4R website.

- Operators are able to find a distributor in a personally chosen location by state or zip code
- Operators are able to connect directly to a distributor after locating the products they need
- Operators receive a list of distributors that carry that supplier's products, including the distributor's:
 - Name & Logo
 - Address
 - Phone Number
 - Link to Website and Customer Service, when available

Step Two |

Operators enter a location by zip-code or state...

The screenshot shows the website interface for "ANYTHING RESTAURANTS.com". The header includes navigation links: Home | About Us | News | Contact Us | Supplier Login/Register | Distributor Login | Operator Login | Industry Links. Below the header is a blue banner with the tagline "Where Foodservice Buyers Connect to Sellers".

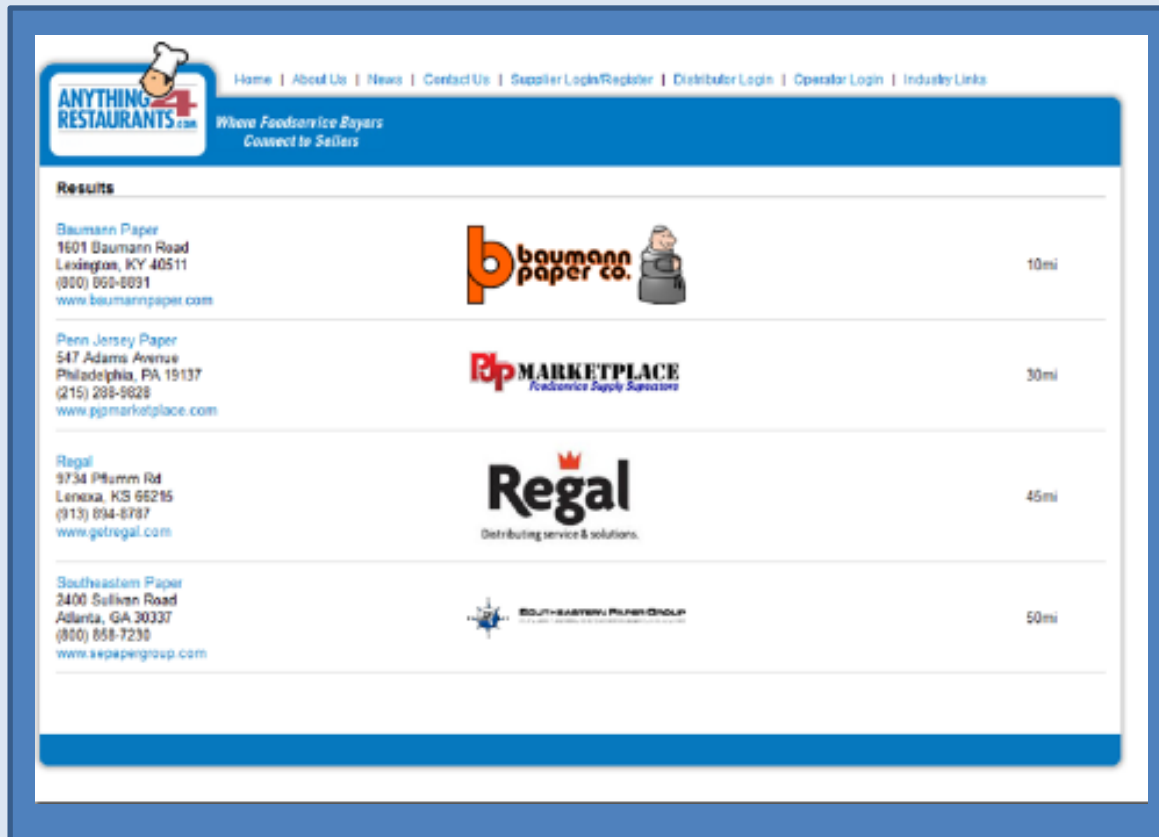

The main content area features a "Category" section with a product image and description: "Easy to dose Excellent destainer for all types of fabric, including colored fabrics Results in minimal fabric damage when used according to user instructions Description TriaxTMMC II concentrated laundry destainer is specially formulated for use in commercial, healthcare and on premise...".

Below the category section are two search options:

- "To find the locations nearest to you, enter your postal code and click 'Go' below." with a "Postal Code:" input field and a "Go" button.
- "To see all locations in a given state, select the desired state below." with a dropdown menu currently showing "Alabama".

Below these options is a map of the United States with state boundaries outlined. A small "x" icon is visible in the top left corner of the map area.
