# NEW & IMPROVED
weatherdatadepot
OFFERS FREE
DEGREE DAY DATA

WeatherDataDepot.com

helps facility managers understand how weather affects the heating and cooling energy use of their buildings

WeatherDataDepot.com provides free degree day reports for

14,000 locations

in the U.S. and Canada

Weather data is provided by world weather expert

ACCU WEATHER®

The new & improved **WeatherDataDepot.com** includes:

- Geo-location option for mobile devices

- **30** 14-day degree day forecasts and multiple year comparisons

- New daily data uploaded every morning

- Copy to Clipboard button makes it easy to copy data to a spreadsheet

WeatherDataDepot is more useful than NOAA online degree day reports because:

- WDD allows you to set your own balance point temperature

- WDD has no hidden data groups

- WDD lets you find your weather station by city, ZIP code, or weather station code

- WeatherDataDepot.com has no hidden gaps that can skew data and interpretation; it fills in missing data through computer models
