# Froud Meditations - Pathways to Faery

App for iPad, iPhone and iPod  
and Meditations Album

Froud Meditations - Pathways to Faery, is unlike any other meditations you have experienced. Designed for artists, writers, musicians and anyone wishing to access various paths leading to the realms of faerie and their own enhanced creativity. Journey through four magical landscapes guided and voiced by renowned international faery artist Wendy Froud with original compositions by Elizabeth-Jane Baldry, acclaimed UK harpist. Brian Froud's visual imagery are riveting from the moment you start the app and continue on through to the old world Journal. There you can sketch or type your experience from the meditations.

As in Wendy's workshops, she gently guides you on your multi-sensory journey helping you discover and release creativity and imaginative thinking locked inside of you. Once discovered, she leads you safely back and encourages you to sketch, write or sculpt your experiences. These four pathways, Trolls, Faeries, Elves and Wise Ones are lengthy journeys during different times of the day and in different seasons. For the first time ever you can have these meditations at your fingertips to be used as you desire.
