6TH ANNUAL

CONGRESS 2012

5 - 8 NOVEMBER - INTERCONTINENTAL HOTEL - HONG KONG

Where the world's titanium and zircon industries meet.

Register online: congress.tzmi.com

Join titanium and zircon industry leaders at TZMI Congress 2012!

The 6th Annual **TZMI Congress 2012** provides delegates with the opportunity to experience an industry wide networking opportunity like no other. This year's Congress is set to build upon the highly successful 2011 Congress, where more than 400 industry leaders and representatives attended an in-depth examination of the titanium feedstocks and zircon industries, TiO₂ pigment and end-use markets.

In response to strong delegate feedback, the TZMI Congress will now be held over three days instead of two, allowing for increased networking opportunities together with expert presentations from around the globe. Proceedings commence with a Welcome Cocktail Reception on Monday evening, followed by a three-day presentation programme. Continued industry growth in 2011 and 2012, means this is an event not to miss.

Strong and continually increasing global demand across the mineral sands supply chain marks the current environment, combined with new project development and new investment interest in the mineral sands industry. These topics and more will be high on the agenda at the 2012 TZMI Congress.

The InterContinental is consistently voted and awarded as one of the world's top hotels, has excellent restaurants, and its in-house business and conference facilities are superb. It is only 30 minutes from the airport and Central District and is only 10 minutes from some of Kowloon's key attractions, including the Avenue of the Stars, Harbour City, Nathan Street shopping precinct and several museums.

We look forward to you joining us for the 6th Annual TZMI Congress, which with continued industry growth in 2011 and 2012, means this is an event not to miss.

Yours sincerely,
TZ Minerals International

PROGRAMME

The scope and quality of topics discussed at the TZMI Congress will represent a vast spectrum of industry insight and knowledge and is recognised as the leading conference in the titanium and zircon sector.

Delegates will find on offer a large number of key presentations ranging across the entire titanium and zircon value chain. Over three days of high-quality presentations by industry leaders, the TZMI Congress offers a forum in which to share knowledge, innovative ideas, case studies and experiences as well as new technologies.

The 2012 TZMI Congress programme will include:

- presentations from top global feedstock producers
- prominent global TiO₂ pigment manufacturers
- industry leading end-use providers
- established and emerging titanium feedstock and TiO₂ pigment producers in China and Asia; and
- the latest TZMI research and analysis for titanium feedstocks, zircon and TiO₂ pigments.

Speakers include industry leading companies such as **Base Resources, DuPont Titanium Technologies, Group DF International, Iluka Resources, Indian Rare Earths, Osaka Titanium Technologies, Richards Bay Minerals, Shandong Doguide, SITTEC Ltd, SON Minerals, Tianhe Titanium Industry, TIMET and Tronox** along with specialist papers from TZMI.

“New Projects and Investor Opportunities” Showcase

In 2011, TZMI held the inaugural ‘New Projects Investor Day’ which received positive feedback from both presenters and delegates. As a result of feedback, the format has been modified to ensure this new segment can be experienced by all. In 2012 the “New Projects and Investor Opportunities” Showcase is incorporated into the main TZMI Congress programme.

In the morning delegates will experience presentations from a high calibre of industry leaders and experts from the titanium and zircon value chain. In the afternoon, delegates will have the opportunity to understand specifically about new projects and investment opportunities available with a greater understanding of what this means for the industry at large.

Presentations will be made by **CIC Resources, Diatreme Resources, Gunson Resources, Oregon Resources, Sheffield Resources, Velta LLC, World Titanium Resources, Zirco Resources** and more to be confirmed.

About Hong Kong

The bustling city of Hong Kong was just a collection of fishing villages when claimed by Britain in 1842 following the First Opium War with China. A failed attempt by the Ching Dynasty to stop the British trading in opium led to Hong Kong being ceded to Britain under the Treaty of Nanking that year. The Kowloon Peninsula was handed over in 1860 and a 99-year lease on the New Territories, comprising the area north of Kowloon up to the Shenzhen River plus 235 outlying islands, was granted in 1898.

Under the unique principle of 'One Country, Two Systems,' Hong Kong returned to Chinese sovereignty on 1 July 1997 as a Special Administrative Region of the People's Republic of China. This arrangement allows Hong Kong to enjoy a high degree of autonomy, retaining its capitalist system, independent judiciary and rule of law, free trade and freedom of speech.

Hong Kong's magnificent harbour has been the key to its development as a trading port and entrepôt for China, progressing through an industrial era to become a leading financial and services centre in Asia. The unique blend of eastern and western influences, matched by diverse attractions and stunning countryside, has also made Hong Kong Asia's prime tourist destination.

Hong Kong is situated on the southeast coast of China at the mouth of the Pearl River facing the South China Sea. Covering an area of 1,104 square kilometres (425 square miles), the territory is made up of Hong Kong Island, the Kowloon Peninsula and the New Territories. At the core is Victoria Harbour, which separates Hong Kong Island from Kowloon and beyond that, the New Territories that runs up to the boundary with Mainland China. As well as making up the bulk of Hong Kong's land mass, the New Territories also incorporates 262 outlying islands, including Lantau where the airport is located.

Arriving in Hong Kong

Hong Kong is a major international transport hub serviced by more than 80 airlines and numerous cruise lines, and by ferries and trains from Mainland China.

Hong Kong International Airport is one of the world's best and most modern airports offering a comprehensive range of facilities and services to travellers entering and leaving Hong Kong. The airport offers arriving passengers direct access to train, bus, taxi and hotel transport, as well as high-speed ferries to Mainland China.

All passengers aged 12 and above departing Hong Kong International Airport must pay a HK\$120 Air Passenger Departure Tax (normally included in the price of the airline ticket). This is waived for passengers who arrive and depart the same day.

There is also a security charge of HK\$33 (normally included in the price of the airline ticket) to maintain the standards of safety, security and passenger services currently required at international airports.

Getting Around Hong Kong

MTR

The MTR rail system covers all major districts in the territory, and includes stops at the boundary with Mainland China (Lo Wu and Lok Ma Chau). The MTR consists of ten lines: Island, Tsuen Wan, Kwun Tong, Tseung Kwan O, Tung Chung, West Rail, East Rail, Ma On Shan and Disneyland Resort, as well as an Airport Express.

Buy the HK\$55 Tourist Day Pass or HK\$25 Child Tourist Day Pass, you can enjoy any one day of unlimited travel on the MTR2 to experience this dynamic city. Ticket is valid for one month from day of issue.

TAXIS

Taxis are plentiful throughout Hong Kong apart from remote areas, and can be hailed on the street (except restricted areas) or summoned by phone. All are metered, relatively cheap, air-conditioned and clean.

There are three types of taxis: red, blue and green. Red taxis service the majority of areas in Hong Kong, however all taxi types service the airport and Hong Kong Disneyland. You might also opt for the taxi queue at a hotel or taxi stand.

FERRIES

With its coastal location and many outlying islands, Hong Kong operates regular ferry routes connecting Hong Kong Island, Kowloon and the outlying islands, as well as Macau and neighbouring cities in mainland China.

ATM

Automated teller machines (ATMs) can be found almost everywhere and some HSBC 'Electronic Money' machines provide 24-hour cash withdrawal (HK\$) facilities for Visa and MasterCard holders. American Express cardholders have access to 'Aeon' ATMs and can withdraw local currency with Express Cash service in town.

CURRENCY

The legal tender is the Hong Kong dollar (HK\$), which is linked to the US dollar at a rate of about 7.80 HKD to 1 USD, although exchange rates may fluctuate slightly.

MONEY EXCHANGE

You can exchange your currency for Hong Kong dollars at authorised money exchangers. At Hong Kong International Airport, currency exchange counters are conveniently open from early morning to late at night. There are 24-hour automated teller machines. The exchange rate fluctuates daily depending on the money market.

CLIMATE

The TZMI Congress will be held during Autumn with pleasant breezes, plenty of sunshine and comfortable temperatures. Many people regard these as the best months of the year to visit Hong Kong.

HEALTH

Upon arrival in Hong Kong, automatic sensors will take your temperature at the Hong Kong International Airport and boundary control points, and if it is high, you will be required to have a quick health check.

Vaccination certificates are usually not required. Check with your local carriers because requirements may change.

Tap water is soft in character and conforms to the guidelines for drinking-water quality recommended by the World Health Organisation. However, most people prefer to drink bottled water. Mineral water including major imported brands is readily available from supermarkets and convenience stores.

VISAS

Nationals of most countries do not require visas and can stay for periods varying from 7 days to 180 days, depending on nationality. For further information visit www.immd.gov.hk/ehtml/hkvisas_4.htm

VOLTAGE

220V / 50Hz. The electrical sockets use the same as the United Kingdom. We recommend an international adapter be purchased for your travels to Hong Kong.

SMOKING

Smoking is prohibited in all indoor public places, including restaurants, karaokes, malls and bars. The smoking ban also covers both indoor and outdoor areas of some premises such as public beaches and swimming pools, escalators and the Hong Kong Wetland Park. It also applies to public transport carriers and facilities

LANGUAGE

Chinese (Cantonese is widely spoken) and English are the official languages of Hong Kong. All official signs are bilingual (using traditional characters). Most shops and restaurants also have English signage. Most taxi drivers and salespeople are able to communicate in English.

TIME ZONE

Greenwich Mean Time +8 hours.
