ACCOUNTING IN THE CLOUD

Premier, the newest offering from Jonas Construction Software, is a web-based construction accounting package. It combines 20 years of industry experience and thousands of users with the most modern technology available.

Premier is a cloud offering hosted in Microsoft Azure that is accessible from virtually anywhere - office, home, job site – all you need is an internet connection. There is no software to install, servers to maintain or back-up required.

Jonas Premier is a fully functional construction software package that includes General Ledger, Bank Management, Accounts Payable, Accounts Receivable, AIA Style and T & M Billing, Change Orders, Time Entry, Subcontract Management and Document Storage.

Jonas Premier Features:

No Licenses to Buy – Month-to-month subscription fees

Getting Started is Simple – Ready-to-use immediately with preset standard configurations. Use them as is or make changes to suit your business.

Easy to Use – Consistent screen designs make navigation simple. 'Help' is integrated into every screen.

Multi-tasking – Simple with TDI (Tabbed Document Interface), simply open another tab.

User Defined Report Generation – Microsoft Excel connects to the SQL database in the cloud. This is in addition to a full suite of standard reports.

User Defined Forms – Microsoft Word prints the standard forms or forms of your own design.

Customer Specific Forms – use different formats for different customers

Document Tracking – built into the application, automatically stores internal documents and allows you to attach external documents.

Bonus Users – Exceed the allowed number of users for short periods (when the PM's are in the office)

Flexible Security – 'Read only' option by user, by menu item
