

Liferay Sync

Share files with a simple drag-and-drop. Liferay Sync transforms the Liferay platform into a central, easy-to-use document sharing service that synchronizes documents across popular desktop and mobile environments.

- Stay connected to your site while on the go.
- Work seamlessly on the same file with other users through versioning and revision tracking.
- View multiple Liferay site document repositories and sub folders in Liferay Portal Enterprise Edition.
- Enjoy cloud-based document benefits with the security of your firewall.

KEY FEATURES

JUST IN TIME SYNC

Liferay Sync minimizes over-the-wire traffic on mobile devices, improving the user experience by only transferring the content of documents when you need them.

SIMPLE SHARING

Sync files are stored locally on desktops and users can rename, move, copy, and delete files in local systems. On mobile devices, users can browse and download files on demand.

SECURITY AND AUTHENTICATION

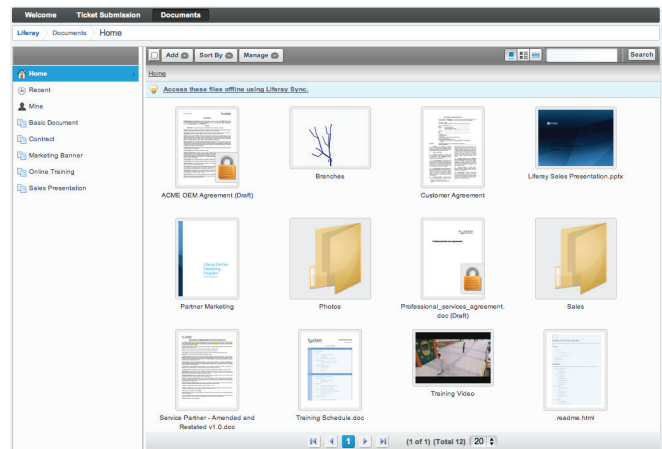

Liferay Sync supports your existing security policy by integrating with your authentication systems.

DOCUMENTS AND MEDIA SYNC

Sync automatically synchronizes files from Liferay Sites, making documents and media files available right away to other Liferay users.

LIFERAY INTEGRATION

Sync users benefit from Liferay’s powerful document creation and management features, including document workflow, tagging, commenting, and categorization.

MULTIPLE SITES

Members of multiple Liferay Sites can manage and navigate between Sites, for example, to view the latest sales forecast from the Sales Site, or upload a photo to the employee lounge.

OFFLINE SUPPORT

Access your documents, whether you are offline on your desktop or mobile device. Updates synchronize automatically when reconnected.

NATIVE CLIENTS - OS AND MOBILE

Liferay Sync is available as a native application in popular mobile and desktop environments for file management and editing.

DESKTOP INTEGRATION

Liferay Sync seamlessly integrates with your chosen operating environment, offering support for system tray icons, desktop notifications, and context menu shortcuts.

WORKS WITH LIFERAY OUT-OF-THE-BOX

Liferay Sync requires no special connectors. It works with Liferay Portal, using Liferay’s powerful remote access mechanisms.

TECHNICAL SPECIFICATIONS

Liferay Sync allows users to connect to and manage documents from any Liferay Portal* installation. Liferay Sync works with Liferay Portal EE out-of-the-box.
