

DSI Entertainment Systems
audio video cinema integration

Why DSI Entertainment Systems?

Founded in 1994, DSI Entertainment Systems is a full-service systems integration firm serving residential and commercial markets nationwide.

We have a singular focus of consistently performing above your expectations and your demands for the finest quality in audio/video entertainment systems, intuitive lighting control and whole home integration.

Our in-house engineering, project management, installation, programming and service departments offer 24/7 support ensuring that you get the most enjoyment and reliability from your system.

Our mission is simple:

Deliver the Exceptional Experience Everyday.

“DSI’s expertise, combined with friendly technical support, is a definite asset to any project. What continues to impress me is their ability to exceed our clients’ expectations even well after the installation is complete.”

Richard Landry – Architect

The DSI Process

Our job, simply, is to create satisfied clients. Experience over the years has given us the opportunity to develop unique processes in system design, project management, installation and programming. Meticulous implementation of these processes ensures that every detail of your project is completed on schedule and within budget.

Your successful project is the result of this well-defined work flow, beginning with the initial concept through to completion.

You can relax knowing that DSI brings together an unparalleled level of service and support with the latest technology our industry has to offer.

A photograph of a modern outdoor deck at sunset. In the foreground, a square fire pit with a metal frame contains a fire burning over a bed of stones. The fire pit is surrounded by several large, smooth, light-colored rocks. To the left, a portion of a swimming pool is visible. In the background, a wooden deck is furnished with outdoor chairs and tables. A modern building with large windows and a wooden exterior wall is visible on the right. The sky is a mix of orange, yellow, and blue, suggesting the time is dusk.

“A great systems integrator is like a great chef. He can take what seems to be the same basic ingredients an ordinary chef would use and turn them into something extraordinary; sometimes even magical; a creation greater than the sum of it’s parts. This comes from experience, talent and desire to be the best. We have assembled a team at DSI, that is among the best in the world; far from ordinary. Every day we are committed to delivering the finest electronic systems, bar none.”

- Eric Thies, Co-Founder

“Our formula for success is actually pretty simple. Our clients trust us and know that we have their best interests at heart”

- Roy Glasner, Co-Founder
