[HostGator](#) LLC is a world leading provider of shared, reseller, VPS and dedicated web hosting. Privately held and based in Houston, Texas, the company was founded in 2002 by Founder and current Chairman Brent Oxley, who started the company from his dorm room at Florida Atlantic University.

Since then, HostGator has grown from a small hosting company with just three servers into a world leading and industry recognized hosting provider with more than 12,000 servers under management. The over eight million domains hosted by HostGator make up approximately 1% of the world's Internet traffic.

As a technology and product innovator, HostGator is able to provide its more than 400,000 customers with innovative products and services designed to complement their existing businesses. HostGator serves customers ranging from individual freelancers to Fortune 500 companies in more than 200 countries.

Because of the nature of reseller hosting, HostGator customers are frequently web designers and or developers who have chosen to provide hosting services to their clients. Businesses of all sizes and shapes frequently make use of HostGator's affordable, but still powerful shared, reseller, and dedicated hosting services. Customers range from complete novices to computer and technology experts.
