

Corporate Profile for HIPAA Solutions, LC

HIPAA Solutions, LC (HSLC) specializes in providing the highest quality in compliance assessments and audits, web-based legal/technical software tools that automate compliance with the Privacy and Security regulations associated with the Health Insurance Portability and Accountability Act (HIPAA), and training on HIPAA and HITECH compliance.

HSLC is unique in that it has specialized in this field since the implementation of the HIPAA Privacy rule starting in 2003. HSLC has developed a national presence as a provider of quality compliance resources and we understand the importance of cost-effective and reliable compliance resources. The HSLC client list includes a wide variety of organizations, ranging from healthcare providers, insurance companies, health information exchanges (HIEs), health IT technology developers, businesses, government entities, and educational institutions.

Services/products provided to clients include HIPAA/HITECH audits or remediation for privacy and security and job function specific training as well as the HIPAA ComplyPAK™ and PHI Locator™ software tools that automate comprehensive compliance efforts.

A representative sample of our consultants practical work experience includes assisting organizations such as Empire Blue Cross and Blue Shield, the MidSouth eHealth Alliance (RHIO), the Southeast Texas Health System, (miRHIO), Driscoll Children's Hospital, the State of Texas, GHX (large BA), Community Regional Medical Centers (Calf.), numerous hospitals, clinics and private medical practices as well as vendors to Federal government agencies.

HSLC's consultants have served as HIPAA "Subject Matter Experts" for publications such as ComputerWorld™ and the American Medical Association. HSLC training and education resources include participation in seminars coordinated by organizations that include Microsoft, the American Health Information Management Association, and the Texas Hospital Association.
