Simplify your image management and watch your business grow

HPN
America's Answer for Quality Healthcare

Share

No More CD's: Your studies can be received, opened and downloaded 100% of the time!

Auto-Route DICOM images from your PACS or modalities to a private cloud. Share with the ease of email with One-Click Share. Choose your compression. Protect your network by isolating incoming CD's with the OneSource DVS. Images, documents and results are immediately available.

Store

Are your proprietary systems preventing you from true Health Information Exchange?

Never pay for PACS Migration again with our Vendor Neutral Archive. We store your studies for 7+ years on our HIPAA Secure private cloud. Your data is safe in our state of the art datacenter. Off-site archive, disaster recovery and all the image sharing features are included for one affordable price.

View

Stretch your budget dollars and grow your profitability

Increase efficiency and reduce overhead by bringing all specialties into one system. View on multiple platforms or use our advanced visualization platform for diagnostics. With the latest in imaging technology expand or replace your current PACS Services.

Build

Attract referrals and increase physician satisfaction

Build your referral network with efficient access to studies. Inside or outside your network, provide on-demand access of images, priors and results. Your referrals can download directly to their PACS or view on the web.

Deliver

Be Prepared to increase your Revenue

Provide accountable care. Increase your patient & physician satisfaction. Give quality of care to your patients by reducing repeat exams. Receive or send exams before the patient arrives for treatment. Your referral physicians can download reports to their EMR at no cost, giving you an edge on your competition.
