

Tube Traffic Secrets: Review Examines Jeff Johnson's YouTube Traffic Training Course

Summary: WealthSpringMarketing.com releases a review of Jeff Johnson's Tube Traffic Secrets training course which teaches online marketers how to harness the power of YouTube to drive massive traffic to their websites and grow their businesses exponentially.

"Jeff Johnson's Tube Traffic Secrets has created an unprecedented amount of buzz, as online marketers have eagerly awaited the release of this new training course," reports WealthSpringmarketing.com's Tiffany Hendricks. "With the many changes that have affected the internet marketing landscape in 2012, more and more businesses are recognizing the need for a source of free traffic, and for many, YouTube traffic is seen as the obvious choice."

Tube Traffic Secrets is the brain child of Internet marketing legend Jeff Johnson, a man known for his ability to stay on the cutting edge of traffic generation. In Johnson's new Tube Traffic Secrets program he shows his students how they can easily drive free traffic from video sites like YouTube simply by properly optimizing and promoting short home made videos uploaded to these sites.

Hendricks explains why Tube Traffic Secrets has gotten so much attention, and such rave reviews:

"Jeff Johnson has a track record of successfully helping new marketers to get their businesses up and running using free traffic. People really seem to love this guy and I think that the warmth of his personality has a lot to do with it," says Hendricks. "And that's not to mention the fact that Johnson's program is the most comprehensive and up to date tube traffic training available."

Leading up to the release of Tube Traffic Secrets Johnson has released 3 free training videos explaining some of his best tricks for getting videos to rank highly, and encouraging viewer engagement. Johnson has also compiled a free PDF "cheat sheet" for his website visitors that reveals the 15 quickest and easiest ways to grab more free traffic from YouTube. While in the past internet marketers employed expensive and time consuming methods for ranking highly in the search engines, the popularity of online video coupled with the easy of acquiring traffic from video sites has made many abandon conventional SEO marketing all together in favor of YouTube marketing.

"To be honest, we were almost reluctant to promote Tube Traffic Secrets, simply because we know how well these methods work, we kind of hate to share these gold nuggets," says Hendricks. "We've been truly astonished at how well we've done with YouTube traffic, and I'd be surprised if anybody that makes a go of it doesn't feel the same way."
