

Portable Floodlight System- 4 X 1500 Watt Metal Halide Lights - 575,000 Lumens - 480V Input

Part #: CM-4X15M-25

**Made in the USA**

The CM-4X15M-25 portable metal halide lighting system from Magnalight produces 575,000 lumens of light. This portable lighting system is designed for rugged yet portable use and is ideal for use in demanding industrial and outdoor construction conditions. The CM-4X15M-25 is a portable lighting tower and provides 575,000 lumens of light output. This portable lighting system has a pick eye for easy positioning of the unit from one area of the workspace to another. The light assembly on this unit produces a wide flood pattern of light that is ideal for illuminating large workspaces and jobsites. This light is designed for heavy duty use in demanding conditions including emergency services, mining, construction, marine, and industrial operations where durability and portability is important.

This portable lighting system is comprised of light weight aluminum assembly fitted with four metal halide lamps mounted within the aluminum cage. The lamps can be easily adjusted up, down or from side to side independantly of each other and locked into position for maximum coverage of the work area. Included with this portable lighting system is 25 feet of SOOW cord with L6-30 twist lock plug which combined with the full adjustability of the light heads helps provide optimal coverage of the workspace.

The light heads on this light system contains four 1500 watt metal halidelamps producing 143,750 lumens each. These lamps are independently adjustable, allowing operators to adjust each light for maximum coverage of the workspace. An included control box containing the ballast is included and features a built in On/off switch, line circuit protection and power indicator. This tower operates on 480 volts AC power and draw 12.5 amps @6000 watts. We also offered a 4-tap optional version of this fixture.

This is a heavy duty unit designed for use in demanding conditions and for overall longevity in difficult construction environments with heavy duty aluminum construction for maximum durability. We make this lighting solution in the United States. Magnalight light towers and lighting systems are designed for industrial, commercial, emergency response, and military applications where the operators are working in harsh, destructive environments and the operators income or mission success are dependent on dependable, durable lighting.

Specifications / Additional Information

CM-4X15M-25 Cage Mount Light System

Lamp Type: (4) 1500 Watt Metal Halide

Dimensions:

Weight:

Total Watts: 6000 watts

Voltage: 480 VAC / 4-Tap

Lighting Configuration: Flood Pattern

Amps: 12.5 @ 480V

Mounting: Aluminum Square Tube

Wiring: 25 feet SOOW Cord 5-15 Straight Blade Plug

Total Lumens: 575,000

Quick Summary

6000 Watt, 575,000 Lumen Light Assembly

25 Foot Cord

Pick Eye

4 Corner mounts
