

LIMITED-EDITION CNC SHARK IS THE FASTEST YET

Mako Shark HD Is 50% Faster Than Previous Models

MEDINA, MN (November 13, 2012) - Rockler Woodworking and Hardware has just released the new limited-edition CNC Mako Shark HD. The latest in a line of several Shark models, the Mako boasts the fastest machining speed the Shark line has ever offered – 50% faster than other Shark models – and comes in a deluxe package that includes the latest software and several accessories including a magnetic dust boot, CNC Touch Plate, and 2¼ HP router motor.

"The CNC Mako Shark HD is a top-of-the-line machine," said Scott Baumeister, Rockler's Mako Shark Product Manager. "The fact that it's the fastest CNC Shark by a full 50% makes it very appealing to users because it saves them time on their projects. The enhanced electronics also improve the performance of the machine for the smoothest, fastest, most precise automated routing any Shark has ever delivered. The Mako also looks really cool in the shop!"

The Mako features enhanced electronics for smoother movement, more power and 50% more speed to the motors. It also ushers in Controller 2.0 software to make the CNC experience easier than ever. With a table measuring 28½" x 36", a variety of signs, cabinet doors, and many other projects are suitable for this platform. Additionally, the Mako is built to handle larger sized routers than other CNC Shark Models. To accommodate greater torque levels, the Mako features adjustable bearings to give more stability during heavy cutting.

The CNC Mako Shark HD (44491) comes in a deluxe package that includes the CNC Mako Shark HD unit, Controller 2.0, Cut 3D, and VCarve Pro software, 1/2" V-Groove Bit, two Hold Down Clamps, router mount, Porter Cable 892 router motor, magnetic dust collection boot, and CNC Shark Touch Plate. The package retails for \$4379.99 and can be purchased at Rockler Woodworking and Hardware stores nationwide, Rockler independent resellers, Rockler.com, or from the Rockler catalog.
