

InnovaTouch is TouchSystems' line of [projected capacitive touch monitors](#) and open frame displays. The projected capacitive touch technology has a number of benefits: reliability, durability, multi-touch and gestures, flush screens, optically bonded glass, and bezel free designs. The monitors and displays can work with different touch inputs, including bare and gloved fingers.*

The InnovaTouch line features monitors and displays in sizes ranging from 15 to 32 inches. They find a home in a number of environments, including retail, hospitality, medical, education, and corporate. The monitors offer both a desktop stand and VESA mount; the open frame designs boast rear and side VESA mounts.

InnovaTouch Product Specifications

Product No.	Design	Screen	Dimensions	VESA
IS1534P-U	Desktop	15	350.8x306.5x202 mm	100x100 mm
IS1734P-U	Desktop	17	386.6x341.9x202 mm	100x100 mm
IS1934P-U	Desktop	19	431.8x390.8x219 mm	100x100 mm
IW2234P-U	Open Frame	22	517.4x313.3x46 mm	100x100 mm
IW2235P-U	Desktop	22	539.19x384.13x287.14 mm	100x100 mm
IW3234P-U	Open Frame	32	786.1x480.7x89.7 mm	400x200 mm

* Bare and gloved fingers work with the screen depending on the sensitivity of the touch panel.
