

## **Forex Striker Review Calls New Forex Trading Robot "New Industry Leader"**

*Summary: WealthSpringMarketing.com releases a review of the new Automated Forex Trading Robot "Forex Striker" calling FX Striker the new industry leader in the automated Forex trading market.*

"Forex Striker has quickly shown itself to be the most advanced Forex EA available," reports WealthSpringMarketing.com's Tiffany Hendricks. "Traders in the know are quickly snatching up licenses so they can begin taking advantage of this rather remarkable software."

While the past few years have seen an explosion of Forex EAs, most are simply variations on dated technology. Forex Striker however represents a breakthrough in EA technology, and program creators Stefan H., Mike S. and Oleh Z. have gone so far as to have the Forex Striker software patented to protect it from copycat Forex Robot developers.

"There's no doubt that previous Forex Robots, in particular FAP Turbo, have worked, very well and made a lot of money our Forex Striker review found that Striker is really in a class by itself," says Hendricks. "Forex striker uses a system that's won 88.27% of all trades since 2006. Numbers like that are exciting to anyone actively trading Forex."

One of the biggest innovations provided by Forex Striker is the software's ability to adjust to ever changing market conditions and react accordingly. Forex Striker is constantly being monitored and updated to adjust to changes in the Forex market without any input from the end user.

Hendricks asserts that this is one of many features that has made Forex striker such a hit:

"Really, to call Striker an 'overnight success' is a misnomer because it has been crushing it for the developers and beta testers for nearly 7 years," says Hendricks. "The program has an intuitive interface that even a novice can have it up and running right away, as well as all the bells and whistles an accomplished trader would expect from a state of the art EA. That said, the only thing that 'really' matters is whether it makes you profit. But, luckily anyone with capital to trade Forex can easily grab a license, and see for themselves what all the hub-bub is about."
