Cantor's Driving School Passes 30,000 Drivers Trained Milestone

Cantor's Driving School – The Driving School That Gets Results® - announces that it recently trained its 30,000th driver. In business since 1976, Cantor's Driving School is now operating in South Florida as well as in its original location in the Philadelphia suburbs. It is one of the longest continually-operated driver training schools in the nation and is proud to have taught over 30,000 people to drive.

King of Prussia, PA (PRWEB) November 27, 2012 – Cantor's Driving School - The Driving School That Gets Results® - announces that it recently reached the milestone of training 30,000 drivers. Started in 1976, [Cantor's Driving School in Pennsylvania](http://www.CantorsDrivingSchool.com) offers [driving lessons](http://www.CantorsDrivingSchool.com) in the Philadelphia suburbs of Montgomery, Delaware and Chester Counties. Last year, Cantor's Driving School also opened a new driving school operating in the South Florida counties of Palm Beach, Broward and Martin Counties.

“This milestone of 30,000 drivers trained shows that high quality, professional driving instruction and great customer service are what customers are looking for when they pick a driving school,” owner Frank Cantor said. “We are grateful to our 30,000 customers and will continue to provide excellent driver training services to our Philadelphia area communities and now the South Florida area.”

Since the 25,000 drivers trained mark was established a couple of years ago, Cantor's Driving School has been diligently tracking the number of driving students it has trained. Just a few days ago, a student from Havertown PA became the 30,000th student and received a free driving lesson and free day-of-test service, where she passed her driver's test and got her driving license. As The Driving School That Gets Results®, Cantor's Driving School is proud of its record of providing great driving instruction and helping so many student drivers learn to drive, successfully pass their driving test, and become good drivers.
