Zybertech Among Top Sage 300 Construction and Real Estate Software Providers

Zybertech Construction Software (<http://zybertech.com>), a Sage 300 construction software provider and developer, earns Sage Million Dollar Club recognition putting the company among the top-performing partners in the Sage channel in 2012.

Calgary, Canada – November 28, 2012 – Zybertech Construction Software Services (<http://www.zybertech.com>), one of the largest Sage 300 Construction and Real Estate (formerly “Sage Timberline Office”) software providers in Canada, has been named to the Sage Million Dollar Club for 2012. Marking the 7th time that Zybertech has achieved Million Dollar Club status, the company is poised for continued success as the construction industry slowly recovers.

Company CEO, Daryl Shenner, says that recognition as a top [Sage 300 Construction Software](#) provider comes during an exciting time of opportunity for the company. “The construction industry is recovering and our company has been firing on all cylinders. We attribute our 7th consecutive million dollar club award to the extensive experience we’ve gained from working with over 500 construction clients in Alberta, Canada and in the U.S.”

Shenner is also CEO of Zybertech’s sister company, HomeFront Software, that develops and supports an extensive library of add-on software for Sage 300 targeted at specific vertical industries within construction. Examples include [HomeFront Software for homebuilders](#), Command Center for residential sub-contractors, and Field-2-Office for the oil and gas industry.

Shenner says, “We’ve continued to enhance our popular HomeFront Software Suite for Sage 300 and have also introduced entirely new applications like [HomeFront CRM](#) and Field-2-Office. When a customer comes to Zybertech, they’re getting more than just a Sage 300 Construction software Reseller. They’re getting a construction technology partner that can enhance their system with a wide range of vertical add-ons ... and it seems the construction industry is taking notice.”

“We are proud of our Sage business partner community for their role in effectively providing our customers with quality products and services,” said Tom Miller, VP of Channel Management for Sage. “Congratulations to **Zybertech Construction Software** in recognition as a Sage Million Dollar Club achiever for 2012!”
