

Knowbody Knows, the App.

You can now play a Party Game anytime, anywhere, with Knowbody Knows, a free App on iPhone & Android.

Smart phones can be fun and interactive, too. Knowbody Knows is a very unique App giving players the feel of a Party game while at work, home or on the move.

Palatine, IL – The future of Mobile Party Games is coming Tuesday, December 11th, with the release of Knowbody Knows, the App. Tired of word games and video games? Connecting in the mobile world has never been so fun.

Every question is about you and your friends playing, and can be personalized to fit your group's personality. How much does Jim spend on (coffee, taxis, beer, Cubs tickets, etc.)? Knowbody Knows! But, once everyone has answered ... guesses, any funny comments added, and points for that round are displayed. But, scoring takes a back seat to fun in this game, so don't forget to use the Chat Room to defend your answers!

Knowbody Knows, winner of the Major Fun Award for Party Games, is completely free, and is available on both iPhone and Android.
