

MEN'S SEXUAL RECOVERY WORKSHOP

New Dates Added for 2012:
November 26-30 &
December 17-21

In addition to inpatient treatment, The Meadows offers unique, five day workshops available to all interested individuals. Attending a workshop can be a cost-effective alternative when inpatient treatment is not an option or as a source of renewal for anyone who has undergone treatment.

SEXUAL RECOVERY WORKSHOP

Cost\$2200

Monday through Friday — 8:30 a.m. to 4:30 p.m.

Sexual Recovery examines sexual compulsive issues and behaviors. We are often hesitant to discuss our sexual feelings and experiences; consequently, many people carry burdens of shame and painful memories of unresolved sexual experiences or uncontrolled sexual behaviors. But sexual drive can be a positive and productive life force that, when appropriately managed, compels us to form relationships that inspire us to live better lives. This inner drive is explored—with compassion, humor, and zest for life—as participants are reminded that sex can be enjoyable, fulfilling, and deeply meaningful.

This workshop helps to lift the shame and resolve sexual dilemmas and self destructive behaviors. The workshop is best for those who want to:

- Jump-start their recovery process
- Prevent relapse
- Acquire tools to support continuing recovery

The workshop broadens many participants' perspectives about sexuality, as they learn how to have productive experiences, maintain positive relationships, and avoid the harmful patterns of the past.
