

fantastic4bands

Are you part of an indie band, trying to promote your music on a shoestring budget? Have you wondered how to create an app? Thought that hiring an agency might be too expensive, and building your own app too hard?

FANTastic4Bands makes it easy for musicians to make a free mobile app, with our zero-coding drag-and-drop platform. Simply visit www.FANTastic4Bands.com and you could be up and running with your own free Android, HTML5 and iPhone app within 30 minutes.

Real World Examples...

Fans of the rock band Rebolt no longer have to search around to follow their favorite band.

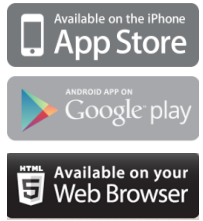

With the latest tracks, videos and social network updates – it's more info on Rebolt than you ever wanted to know.

Try a Live preview of the app at:
<http://www.infinitemonkeys.mobi/Rebolt>

Now every band can make your own mobile app

Instantly publish your free app

3 platforms, 1 click
 iPhone app + Android app + HTML5

Amazing features for today's working Indie Band:

- Full music MP3 track previews bundled securely into the app
- Lyrics, description and cover art for each track
- Click-to-buy sales for your tracks from iTunes/AmazonMP3
- SoundCloud music tracks integration
- Twitter feeds of band members
- Blogs by or about the band
- Photo Sharing
- Calendar of upcoming shows
- Your produced / live videos
- Live chat room for you and your fans
- Links to Band merchandise shopping website
- Band management contact form in the app

If you've been wondering how to make an app, try our free app maker today at:
